WHAT YOU GET WITH SAFETYSKILLS

Award-Winning Training

The SafetySkills course library contains over 1,000 of the most-effective EHS and HR training titles available, built based on regional and international standards (EPA, DOT, ISO 45001, etc.). Our full-length courses average 15-25 minutes in length while our microlearning courses average 5-7 minutes. And all of our rich, interactive courses ensure a front-of-the-seat learning experience that can play on your Learning Management System or ours.

Engaging Content

SafetySkills builds courseware with production values that are second to none: vibrant, 3D animations, full narration, and Adaptive Branch Learning Engagement (ABLE), which eliminates redundancy of information by allowing the learner to travel through the experience differently each time.

Fully Accessible

We offer self-paced, 508-compliant courses with multiple language options. Courses are accessible through the user-friendly interface 24/7, on desktop or mobile, anywhere in the world.

Always Current, Always Compliant

SafetySkills continuously updates our titles with new content, fresh imagery and improved features to ensure our courses remain accurate, relevant and engaging. SafetySkills courses are also always compliant with updated OSHA and international regulations.

Multiple Languages Available

Courses are available in the following languages:

Arabic	English, Indian	French Canadian	Korean	Russian	Welsh
Chinese, Mandarin	English, New Zealand	Hindi	Norwegian	Spanish, European	
Danish	English, South African	German	Polish	Spanish, Mexican	
Dutch	English, US	Icelandic	Portuguese, Brazilian	Spanish, US

TAILOR-MADE

SafetySkills helps you implement YOUR training program with enhanced customization options that put your organization front and center.

Your Brand

All Direct and Engage accounts come with the ability to display your company logo on your login page and LMS interface. Take it a step further and wrap all of our courses in your logo and colors with a custom-designed course interface.

Your Content

Provide company documents such as policies and procedures within the LMS, and attach documents to specific courses, users, or offline classes and events. Upload, assign and track any additional SCORM/AICC-compliant courses you have available using the SafetySkills LMS, keeping all of your training in one central location.

Your SafetySkills

Augment and enhance any existing SafetySkills title, or create your own dynamic custom course, to provide training that is unique to your organization's needs and maintains the SafetySkills commitment to quality.

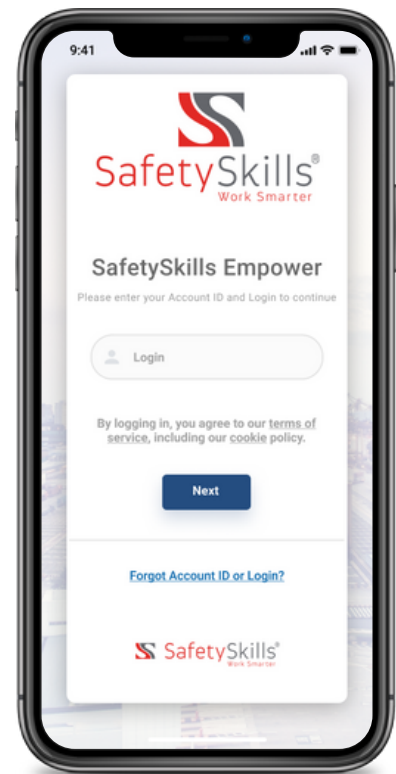

OUTCOME-BASED EHS MANAGEMENT

SafetySkills Empower is an outcome-based safety management platform designed to be utilized by both longtime safety experts and by those with no industry experience. The lightweight design means the full suite is ready to use upon implementation, without having to wait a year or longer before reaching its full use potential for your business.

In addition to our ever-growing catalog of more than 950 training courses, SafetySkills Empower users will also have access to an entire outcome-based training platform that includes a **job hazard analysis tool**, an **incident management tool**, **custom JHA briefings**, **toolbox talk sessions**, **digital OSHA recordkeeping forms**, and an **audits and inspections tool**.

SafetySkills Empower Features

- Multiple dashboards
- Step-by-step job hazard analysis documentation
- Robust hazard, control and job activity library
- Customizable controls and job activities
- Unrestricted incident reporting
- Assign and track identified CAPAs
- Multiple options to conduct root cause analysis
- Dynamic OSHA 300 reporting
- Conduct and track toolbox talk sessions
- Customizable audits and inspections
- Downloadable app for training on mobile devices

Why Choose SafetySkills Empower?

Closes the Loop

Trainings can be targeted directly toward hazards identified through formal analysis – no guesswork.

Artificial Intelligence

The system will learn and improve over time, and will suggest controls and competencies based on performance data.

Time-To-Value

A lightweight modular approach for easy implementation and quick adoption.

Easily Accessible

Access applicable training content and toolbox talk sessions for your employee safety meetings and briefings.

SUPERIOR CUSTOMER SERVICE

SafetySkills has a reputation for great customer service. All clients on every plan have access to a robust knowledge base of how-to videos and training materials, as well as **unlimited, responsive technical support**. Concierge-level setup and support packages are also available for the ultimate hassle-free deployment. Our Customer Care team strives to be transparent about our product development process, and invites customer ideas and feedback through our user forums. Your personally assigned Training Success Manager will handle all of your account needs and will make sure you are getting the most use out of your content and the system.

SafetySkills®

Work Smarter

SafetySkills is a USA-based company focusing on providing world-class, technology-based solutions to global compliance training challenges. SafetySkills develops and markets its own products, plus provides custom programming, subject matter expertise, ISD and content development services for public and private-sector clients. SafetySkills has been designing, developing and deploying need-specific, targeted Environmental, Occupational Health & Safety (EHS) and emergency response training since 1993. Since then, we have developed over 1,000 digital titles and a robust Learning Management System. SafetySkills has a proven track record, providing effective training solutions for our clients who represent a broad-range of industries, including over 10,000 private-sector companies, many of which are members of the Fortune 500. In all, we have over two million student/contact hours of conventional training under our belt. We have certified over 5,000 hazardous materials technicians for national level response agencies. Our training has been delivered in 18 countries and in multiple languages. We believe this experience with conventional training is critical in developing our competency-based e-learning products. Our company holds accreditation with the International Association of Continuing Education and Training (IACET) and the US EPA External Provider Program, and our staff holds numerous individual certifications including OSHA's Outreach Training Program, the International Fire Service Accreditation Congress, and the Environmental Auditing Review Board.
